Sarah Wischnefski
Brenny Specialized, Inc.
Dear Sarah,

I wanted to take this opportunity to write you and the staff at Brenny to acknowledge the outstanding job you do (and always have done) with implementing and promoting a company culture that is second to none when it comes to safety and compliance. You have never let operations dictate the way you conduct your business and have always shown that safety is a value to you and to everyone at Brenny. In my 20 plus years with Great West, I have not seen any company as consistent as yours in delivering the message that your number one priority is the wellbeing and safety of your drivers and, as a direct result, the safety and wellbeing of the motoring public that you share the road with. Over the years, your loss performance has been a shining star and your incentives programs for your drivers and staff support your commitment to safe operations. I have yet to see any company come close to the safety incentives that you have in place for everyone on your staff. Your stewardship of safety and compliance start at the top and filter down throughout your company and that is something that few trucking operations can say.

Please keep up your efforts to drive home your message to your staff and I am sure you will continue to reap the rewards that have been generated to this point. If I can be any assistance to you in any way, I am always ready, willing, and able to assist you. Thanks again for all of your efforts and I wish for your continued success.

Sincerely,

Ned Buser
Safety Supervisor, Great West Safety Services
